Subject: Response to your complaint on West Lake Landfill

Mr. Jankowicz,

Thank you for your complaint below, regarding your air quality concerns for the communities and businesses in the immediate

vicinity of the Bridgeton Landfill. In many cases, enforcement starts with tips and complaints from concerned citizens

just like yourself. Due to the confidential nature of enforcement, the manner in which those tips and complaints are

followed up on cannot be disclosed as disclosure might compromise enforcement efforts. Tips and complaints are

welcome and future concerns may be submitted at <http://www2.epa.gov/enforcement/report-environmentalviolations>.

In the case of the Bridgeton Landfill, the regulatory authority to address air quality and management of the Resource

and Conservation and Recovery Act Subtitle D issues has been delegated to the state of Missouri and is being addressed

by the Missouri Attorney General on behalf of the Missouri Department of Natural Resources and the Missouri

Department of Health and Senior Services in coordination with Region 7 of the EPA. More information regarding the

actions undertaken at the Bridgeton Landfill can be found at <http://www.dnr.mo.gov/Bridgeton/>, or you may contact

MDNR's solid waste management program at swmp@dnr.mo.gov.

To get more information on your health concerns, you may contact Jonathan Garoutte of the

Missouri Department of

Health and Senior Services at 573-751-6102, or Denise Jordan-Izaguirre of the Agency for Toxic Substances and Disease

Registry at 913-551-1310.

Alleged Violator's Name: West Lake Landfill / Bridgeton

Alleged Violator's Address: 13570 St Charles Rock Rd, Bridgeton, MO

Alleged Violator's City: Bridgeton

Alleged Violator's State: Missouri

Alleged Violator's Zip: 63044

Tip or Complaint: The smell is horrendous here. It has been going on since we moved here but would like to file a formal complaint since this is unacceptable. This carcinogens are not good and the residents in my area who are older complain of health conditions...more than likely due to this. I beg you to address this more than you already are, as the lives of many are in your hands on this.

Specific Directions: Driving on I-270 from Page all the way past Rock Road. Can smell right from my home. Our home had radon (more than likely not due to this, but possible). This landfill needs to be addressed.

Violation Still Occurring? Yes

State DEP/DEQ/DEM Notified? No
